Mr. LEON FELIX

CFO / CEO

DIRECTOR MESSAGE

At FXR Global, our primary focus has always been on maximizing business ROI for our clients. We understand that in the realm of forex trading, achieving sustainable and substantial returns is paramount. Therefore, we continuously strive to harness the power of cutting-edge technology, extensive market research, and unparalleled expertise to ensure that every investment yields the highest possible income.

Our success is not measured solely by financial gains but also by the trust and confidence bestowed upon us by our clients. We are dedicated to maintaining the highest standards of integrity, transparency, and professionalism in all our dealings. This unwavering commitment forms the cornerstone of our company ethos and guides us in every decision we make.

OUR BUSINESS

FOREX TRADING

REAL STATE

TOURSIM

HOSPITALITY

WHAT IS FOREX ?

The foreign exchange market is where currencies are traded. This international market's most unique aspect is that it lacks a central marketplace. Instead, currency trading is conducted electronically over the counter (OTC). This means that all transactions occur via computer networks among traders worldwide rather than on one centralized exchange.

The FX market is the only truly continuous and nonstop trading market in the world. In the past, the forex market was dominated by institutional firms and large banks, which acted on behalf of clients. But it has become more retail-oriented in recent years—traders and investors of all sizes participate in it.

WHAT IS REAL ESTATE ?

Real estate typically refers to property consisting of land and the buildings on it, along with its natural resources such as crops, minerals, or water; immovable property of this nature. It's a tangible asset, meaning it exists physically and can be touched and felt. Real estate can be residential (housing), commercial (business property), industrial (factories or warehouses), or land (undeveloped property).

Investing in real estate can be a way to generate income through rental properties or through buying and selling properties for a profit (also known as flipping). It's a popular investment choice because it has the potential for long-term appreciation and can provide a steady income stream.

WHAT IS TOURSIM?

Tourism refers to the activity of traveling to different places for leisure, recreational, cultural, or business purposes. It encompasses a wide range of activities and experiences, including visiting historical sites, enjoying natural attractions, participating in adventure activities, exploring new cultures, attending events and festivals, and engaging in relaxation and wellness activities.

Tourism plays a significant role in economies around the world, contributing to employment, infrastructure development, and revenue generation. It can take many forms, from domestic tourism within one's own country to international travel across borders.

WHAT IS HOSPITALITY ?

Hospitality refers to the relationship between a host and a guest, encompassing the reception and entertainment of visitors, guests, or strangers. It involves providing a welcoming and accommodating environment to ensure the comfort and satisfaction of guests.

In a broader sense, hospitality is also an industry that includes businesses and services related to lodging, food and beverage, event planning, travel, and tourism. This industry encompasses hotels, restaurants, resorts, cruise lines, event venues, catering services, and other establishments that focus on providing a positive experience for guests.
